

## SUMMARY: 2017 CHANGES TO DEFINITIONS, ZONES AND PARTICULAR PROVISIONS FOR INTENSIVE ANIMAL PRODUCTION

RURAL ZONES	FZ Farming Zone / GWZ Green Wedge Zone / RAZ Rural Activity Zone	RCZ Rural Conservation Zone / RLZ Rural Living Zone / GWAZ
<p><b>1. Animal Production NEW</b></p> <p>New Definition – <i>production of birds and all mammals except rodents for production of eggs, fibre, meat, milk or other animal products.</i></p>	<p><b>Zones:</b> Introduced as <u>Section 2</u> (permit). Specifically included in zone tables in these zones. Includes all forms of animal production, at any scale.</p>	<p><b>Zones:</b> Introduced as <u>Section 2</u> (permit). Specifically included in <b>GWAZ</b> zone table. Includes all forms of animal production, at any scale or intensity, in these zones.</p>
<p><b>2. Extensive Animal Husbandry DELETED</b></p> <p>Deletes 'grazing' (<i>farm animals kept at an intensity where most food is obtained from grazing</i>) from planning schemes. Includes emergency and supplementary feed, and incidental penning and housing.</p>	<p><b>Zones:</b> Deleted from Clause 74 Definitions in the planning scheme.</p>	<p><b>Zones:</b> Deleted from Clause 74 Definitions in the planning scheme.</p>
<p><b>3. Grazing Animal Production NEW</b></p> <p>New Definition <i>Animal production – grazing, browsing or foraging with seasonal (6 of 12 months) and "routine" supplementary feeding.</i></p> <p>The intensity of use allowed in the new <i>Grazing Animal Production</i> use is increased over the intensity of deleted <i>Extensive Animal Husbandry</i> use.</p>	<p><b>Zones:</b> <u>Section 1</u> (as-of-right). No conditions apply. No reference to requirements of new Particular Provision Clause 52.XX or for requirements to be met. No restrictions on location in drinking water catchment.</p> <p><b>Particular Provision 52.XX Grazing Animal Production:</b> NEW</p> <p>Not a condition in zones. No restriction on number or type of animals.</p> <p><b>XX-1 Section 1:</b> no permit for <b>building, works or equipment</b> in these zones if <b>100m</b> from dwelling in separate ownership / residential-UGZ zone / waterway-wetland.</p> <p><b>XX-2 Permit:</b> can be issued for <b>buildings, works and equipment</b> within <b>100m</b> setbacks.</p> <p><b>XX-3 Decision Guidelines:</b> All 3 guidelines relate to impacts of supplementary feeding.</p>	<p><b>Zones:</b> Current <i>Extensive Animal Husbandry</i> is deleted and replaced at <u>Section 2</u> (permit) by intensified <i>Grazing Animal Production</i>.</p> <p>No conditions apply. No restrictions on type, number, setbacks, or location in drinking water catchment.</p> <p>Unclear whether any part of Particular Provision 52.XX applies to these zones.</p>
<p><b>4. Intensive Animal Husbandry DELETED</b></p> <p>Deleted from Clause 74 and from zones where currently prohibited.– <i>where farm animals obtain most of their food within enclosures.</i></p> <p>Includes all forms of intensive animal husbandry.</p>	<p><b>Zones:</b> Deleted from Clause 74 Definitions in the planning scheme, but remains at <u>Section 2</u> (permit) in these zones.</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <u>Section 3</u> (prohibited). Deleted and replaced at <u>Section 3</u> by <i>Intensive Animal Production</i> (which only includes <i>Cattle Feedlot</i> and <i>Intensive Dairy Farm</i>). The deletion of <i>Intensive Animal Husbandry</i> from <u>Section 3</u> (prohibited) results in all other forms of intensive animal production becoming <u>Section 2</u> (permit).</p>
<p><b>5. Intensive Animal Production NEW</b></p> <p>New Definition – <i>where animals get all food from within enclosures, buildings, paddocks or pens, and don't graze on a daily basis.</i></p> <p>Definition is narrowed to include <b>Cattle Feedlot</b> and <b>Intensive Dairy Farm</b> only. No other defined intensive animal use is included.</p>	<p><b>Zones:</b> Introduced as <u>Section 2</u> (permit) other than <i>Cattle Feedlot</i> which remains <u>Section 1</u> (less than 1,000 cattle).</p>	<p><b>Zones:</b> Remains <u>Section 3</u> (prohibited) - <i>Cattle Feedlots</i> and <i>Intensive Dairy Farms</i> only.</p> <p>All other forms of intensive animal uses change from <u>Section 3</u> (prohibited) to <u>Section 2</u> (permit).</p>

RURAL ZONES Cont...	FZ Farming Zone / GWZ Green Wedge Zone / RAZ Rural Activity Zone	RCZ Rural Conservation Zone / RLZ Rural Living Zone / GWAZ
<p><b>Cattle Feedlot</b></p>	<p><b>Zones:</b></p> <p><b>FZ, RAZ:</b> Remains <u>Section 1</u> (as-of-right) with conditions (including less than 1,000 cattle, and prohibition in all drinking water catchments). If conditions not met, becomes <u>Section 2</u> (permit) with conditions.</p> <p><b>GWZ:</b> Remains <u>Section 2</u> (permit) with conditions (including prohibition in some drinking water catchments).</p>	<p><b>Zones:</b> Remains <u>Section 3</u> (prohibited).</p>
<p><b>Intensive Dairy Farm NEW</b></p> <p>New Definition – <i>Intensive animal production where cattle are kept for milk production.</i></p>	<p><b>Zones:</b> Currently included in <i>Intensive Animal Husbandry</i>, <u>Section 2</u> (permit, no conditions). No change.</p> <p>No restrictions in drinking water catchments.</p>	<p><b>Zones:</b> Remains <u>Section 3</u> (prohibited).</p>
<p><b>6. Pig Farm NEW</b></p> <p>New Definition – <i>Keep/breed pigs for meat production.</i></p> <p>Currently included in <i>Intensive Animal Husbandry</i>.</p> <p>* <i>at an average of 6 piglets per sow</i></p>	<p><b>Zones:</b> PERMIT TO AS-OF-RIGHT Currently <u>Section 2</u> (permit).</p> <p>Changed to <u>Section 1</u> (as-of-right) if condition (52.ZZ-1) met. If condition is not met, becomes <u>Section 2</u> (permit), no conditions. No restrictions in drinking water catchments.</p> <p><b>Particular Provision 52.ZZ Pig Farm:</b> NEW</p> <p><i>Error:</i> shown in exhibited zones as 52.YY (Poultry Farm) condition.</p> <p><b>ZZ-1 Section 1</b> - no permit for <b>Pig Farm use</b> for  up to 10 pigs or 3 sows, 1 boar and progeny (22* pigs) if:  if no pigs are located within <b>50m</b> of  dwelling in separate ownership / residential-UGZ zone / waterway-wetland.</p> <p><b>ZZ-2 Third party rights</b> are extinguished for permit applications for <b>Pig Farm use or buildings and works</b> where there are no more than:  8 sows, 1 boar + progeny (57* pigs), and no pigs are within <b>100m</b> of:  dwelling in separate ownership / residential-UGZ zone.</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <i>Intensive Animal Husbandry</i> <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks.</p> <p>No restrictions in drinking water catchments.</p> <p><b>Particular Provision 52.ZZ:</b> does not apply to RCZ, RLZ, GWAZ.</p>
<p><b>7. Poultry Farm NEW</b></p> <p>New Definition – <i>Keep or breed poultry for production of meat or eggs.</i> Includes <b>Broiler Farm</b>. Currently included in <i>Intensive Animal Husbandry</i>.</p> <p><b>Particular Provision 52.YY Poultry Farm NEW</b></p> <p>As “<i>Poultry Farm</i>” includes <i>Broiler Farm</i>, the 52-YY controls for <i>Poultry Farm</i> also apply to <i>Broiler Farm</i>.</p> <p>52.YY (which replaces the current 52.31 Broiler Farm particular provision) also contains additional provisions specific to <i>Broiler Farm</i>.</p>	<p><b>Zones:</b> PERMIT TO AS-OF-RIGHT Currently <u>Section 2</u> (permit).</p> <p>Changed to <u>Section 1</u> (as-of-right) if condition (52.YY-1) met.</p> <p>If condition is not met, becomes <u>Section 2</u> (permit) no conditions.</p> <p>No restrictions in drinking water catchments.</p> <p><b>Particular Provision 52.YY Poultry Farm:</b> NEW</p> <p><i>Error:</i> shown in exhibited zones with 52.ZZ (Pig Farm) condition.</p> <p>No restrictions in drinking water catchments.</p> <p><b>YY-1 Section 1</b> - no permit for <b>Poultry Farm use</b> for up to  200 poultry / 10 emus/ostriches if:</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <i>Intensive Animal Husbandry</i> <u>Section 3</u> (prohibited). Transferred to <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks.</p> <p>No restrictions in drinking water catchments.</p> <p><b>Particular Provision Clauses 52.YY-1 AND 52.YY-4</b> apply only to FZ, GWZ, and RAZ zones.</p>

RURAL ZONES cont...	FZ Farming Zone / GWZ Green Wedge Zone / RAZ Rural Activity Zone	RCZ Rural Conservation Zone / RLZ Rural Living Zone / GWAZ
52.YY Poultry Farm Particular Provision cont...	<p>no poultry within <b>30m</b> of waterway</p> <p>no poultry housing or constructed shelter within <b>50m</b> of dwelling in separate ownership / residential-UGZ zone</p> <p><b>YY-4 Third party rights</b> are extinguished for permit applications (<u>Section 2</u>) for <b>use or buildings and works</b> for <b>Poultry Farm</b> if:</p> <p>up to than 450 poultry / 25 emus/ostriches if:</p> <p>no poultry housing or constructed shelters within <b>100m</b> of dwelling in separate ownership / residential – UGZ zone;</p> <p>Or meets requirements of the Code for a “<i>Class A Broiler Farm</i>” (up to 400,000 chickens).</p>	
<p><b>8. Broiler Farm</b></p> <p>“<i>Special Class Broiler Farm</i>” or “<i>Farm Cluster</i>” Broiler Farms have over 400,000 birds.</p>	<p><b>Zones:</b> PERMIT TO AS-OF-RIGHT Currently Section 2 (permit) with conditions. Changed to <u>Section 1</u> (as-of-right) with conditions. If conditions not met, becomes <u>Section 2</u> (permit) with conditions.</p> <p>No restrictions in drinking water catchments.</p> <p><b>Particular Provision 52.YY Poultry Farm (Broiler Farms) NEW</b></p> <p><i>Error: shown in exhibited zones as 52.ZZ (Pig Farm) condition.</i></p> <p><b>YY-2 Permit application for use or buildings and works for Broiler Farm</b> must comply with <i>Victorian Code for Broiler Farms 2009</i> – except existing broiler farms, if number of chickens not increased.</p> <p><b>YY-3 Any planning scheme requirement for use or buildings and works</b> ( other than an overlay), does not apply to an <b>outdoor range area</b> for an existing <b>Broiler Farm</b> if:</p> <p>the number of chickens is not increased, and</p> <p>there are no more than 150,000 chickens.</p> <p><b>YY-5 S52 Notice</b> to EPA of applications for <b>use and buildings and works</b> if <b>Broiler Farm</b> meets requirements for “<i>Special Class Broiler Farm</i>” or “<i>Farm Cluster</i>” in the <i>Victorian Code for Broiler Farms 2009</i>.</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <i>Intensive Animal Husbandry Section 3</i> (prohibited). Transferred to <u>Section 2</u> (permit), with condition – Clause 52.YY-2 is to be met:</p> <p><b>Particular Provision Clause 52.YY-2</b></p> <p><i>Error: shown in exhibited zones as 52.ZZ (Pig Farm) condition.</i></p> <p><b>Permit application for use or buildings and works for Broiler Farm</b> must comply with <i>Victorian Code for Broiler Farms 2009</i> – except existing broiler farms, if number of chickens not increased.</p> <p>A ‘<i>Class A Broiler Farm</i>’ under the Code may have up to 400,000 birds.</p> <p>Particular Provision Clauses <b>52.YY-3</b> and <b>52.YY-5</b> may also apply.</p> <p>No restrictions in drinking water catchments.</p>
<p><b>9. Poultry Hatchery NEW</b></p> <p>New Definition : “<i>incubate or hatch poultry eggs</i>”.</p>	<p><b>Zones:</b> Defaults to (remains) <u>Section 2</u> (permit).</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <i>Intensive Animal Husbandry Section 3</i> (prohibited). With deletion of <i>Intensive Animal Husbandry</i> changes to <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks. No restrictions in drinking water catchments.</p>
<p><b>10. Any other intensive animal use</b></p>	<p><b>Zones:</b> Remains <u>Section 2</u> (permit), through retention of both current <i>Intensive Animal Husbandry</i> and new <i>Animal Production</i> use at <u>Section 2</u>.</p>	<p><b>Zones:</b> PROHIBITED TO PERMIT Currently <u>Section 3</u> (prohibited). Changes to <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks. No restrictions in drinking water catchments.</p>

INDUSTRIAL ZONES	Industrial 1 <b>IN1</b> / Industrial 2 <b>IN2</b> / Industrial 3 <b>IN3</b>
Changes remove current prohibitions on intensive animal production in all industrial zones, potentially introducing these uses into or adjacent to towns.	
<b>11. Animal Production NEW</b>	<b>Zones:</b> Introduced as <u>Section 2</u> (permit). Includes all forms of animal production, at any scale and any location in any industrial zone. No conditions, or restrictions for drinking water catchments.
<b>12. Extensive animal husbandry DELETED</b>	<b>Zones:</b> Deleted from <u>Section 1</u> .
<b>13. Grazing Animal Production NEW</b>	<b>Zones:</b> AS-OF-RIGHT TO PERMIT Currently <u>Section 1</u> (as-of-right). Changed to <u>Section 2</u> (permit). No conditions apply. No reference to requirements of new Clause 52.XX. Can be any scale, any number, anywhere. No setbacks. No conditions, or restrictions for drinking water catchments.
<b>14. Intensive Animal Husbandry DELETED</b>	<b>Zones:</b> PROHIBITED TO PERMIT Deletion of <i>Intensive Animal Husbandry</i> from <u>Section 3</u> (prohibited), except IN1, results in all forms of intensive animal use defaulting to <i>Agriculture</i> ( <u>Section 2</u> ). Retention in IN1 creates conflicting use requirements (both permit and prohibited) – error?
<b>15. Intensive Animal Production NEW</b>	<b>Zones:</b> PROHIBITED TO PERMIT Introduced as <u>Section 2</u> (permit). Includes <i>Cattle Feedlot</i> and <i>Intensive Dairy Farm</i> only.
<b>Cattle Feedlot</b>	<b>Zones:</b> PROHIBITED TO PERMIT Currently included in <i>Intensive Animal Husbandry</i> , <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> permit with single condition (52.26). No restrictions for size, or drinking water catchments.
<b>Intensive Dairy Farm NEW</b>	<b>Zones:</b> PROHIBITED TO PERMIT Currently included in <i>Intensive Animal Husbandry</i> , <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> (permit). No conditions. No restrictions on size, location, numbers, setbacks. No restrictions in drinking water catchments.
<b>16. Pig Farm NEW</b>	<b>Zones:</b> PROHIBITED TO PERMIT Currently included in <i>Intensive Animal Husbandry</i> , <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> (permit). No conditions to be met, or restrictions on size, location, numbers, setbacks. No restrictions in drinking water catchments. New Particular Provision 52.ZZ does not apply to Industrial zones.
<b>17. Poultry Farm NEW</b> Includes <b>Broiler Farm</b>	<b>Zones:</b> PROHIBITED TO PERMIT Currently included in <i>Intensive Animal Husbandry</i> , <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> (permit). No conditions to be met, or restrictions on size, location, numbers, setbacks. No restrictions in drinking water catchments. New Particular Provision 52.YY does not appear to apply to Industrial zones.
<b>18. Broiler Farm</b> <b>Particular Provision Clause 52.YY-2</b> <i>Error: zones show condition as 52.ZZ-2 (Pig Farm)</i>	<b>Zones:</b> PROHIBITED TO PERMIT Currently <i>Intensive Animal Husbandry</i> <u>Section 3</u> (prohibited). Changed to <u>Section 2</u> (permit), with condition – Clause 52.YY-2 is to be met: <b>Permit application for use or buildings and works for <i>Broiler Farm</i></b> must comply with <i>Vic Code for Broiler Farms 2009</i> – except existing broiler farms, if number of chickens not increased. No restrictions in drinking water catchments.
<b>19. Poultry Hatchery NEW</b>	<b>Zones:</b> PROHIBITED TO PERMIT Current <u>Section 3</u> (prohibited). With deletion of <i>Intensive Animal Husbandry</i> from <u>Section 3</u> (prohibited), becomes <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks.
<b>20. Any other intensive animal use</b>	<b>Zones:</b> PROHIBITED TO PERMIT Current <u>Section 3</u> (prohibited). With deletion of <i>Intensive Animal Husbandry</i> from <u>Section 3</u> (prohibited), becomes <u>Section 2</u> (permit). No conditions, or restrictions on size, location, numbers, setbacks.

COMMERCIAL ZONES	Commercial 1 <b>C1</b> / Commercial 2 <b>C2</b>
<b>21. Animal Production NEW</b>  New Definition – <i>production of birds and all mammals except rodents for production of eggs, fibre, meat, milk or other animal products.</i>	Current <i>Intensive Animal Husbandry</i> is deleted from <u>Section 3</u> (prohibited) and replaced with <i>Animal Production</i> ( <u>Section 3</u> ).  This prohibits all intensive animal production uses including <i>Grazing Animal Production</i> (currently <i>Extensive Animal Husbandry</i> (grazing) is <u>Section 2</u> ).  These new prohibitions reflect and respond to the intensification of <i>Grazing Animal Production</i> with supplementary feeding.

RESIDENTIAL ZONES	RGZ Residential Growth / GRZ General Residential / NRZ Neighbourhood Residential / MUZ Mixed Use / TZ Township / LDRZ Low Density Residential / UGZ Urban Growth
<p><b>22. Animal Production NEW</b></p> <p>New Definition – <i>production of birds and all mammals except rodents for production of eggs, fibre, meat, milk or other animal products.</i></p>	<p>Current <i>Intensive Animal Husbandry</i> is deleted from <u>Section 3</u> (prohibited) and replaced with <i>Animal Production</i> (<u>Section 3</u>).</p> <p>This prohibits all intensive animal production uses including <i>Grazing Animal Production</i> (currently <i>Extensive Animal Husbandry</i> (grazing) is <u>Section 1</u> in the UGZ and Section 2 in all other residential zones).</p> <p>These new prohibitions reflect and respond to the intensification of <i>Grazing Animal Production</i> with supplementary feeding.</p>
OTHER ZONES	UFZ Urban Flood Zone
<p><b>23. Animal Production NEW</b></p> <p>New Definition – <i>production of birds and all mammals except rodents for production of eggs, fibre, meat, milk or other animal products.</i></p>	<p><i>Intensive Animal Husbandry</i>, currently <u>Section 2</u> (permit), is deleted and replaced with <i>Animal Production</i> at <u>Section 2</u> (permit). All intensive animal production is allowed.</p> <p><i>Extensive Animal Husbandry</i> (i.e, grazing) - currently <u>Section 1</u> (as-of-right) - is deleted and replaced with <i>Grazing Animal Husbandry</i> at <u>Section 1</u> (as-of-right).</p> <p><i>Cattle Feedlot</i> and <i>Broiler Farm</i> remain Section 2 but with new conditions added.</p>

#### **NOTES: ALL ZONES**

- ❖ Definitions are no longer tied to “farm animal”. Now any bird or mammal production except rodents is allowed.
- ❖ Rural Conservation Zone - opens up intensive animal agriculture (and agribusiness) to the most sensitive areas of the State. Victoria only has one conservation zone, and these changes ear-mark it for pig and poultry farms, and almost any other type of intensive animal use, all forms of which are currently prohibited.
- ❖ In Macedon Ranges Shire, the Farming Zone is also applied to drinking water catchments (Eppalock).
- ❖ “*Grazing*” *Animal Production* is a misnomer. This new use is supplementary feeding, with incidental grazing.
- ❖ **Error** Conditions for uses in zones that are based on proposed new Clause 52 Particular Provisions incorrectly require *Pig Farms* (52.ZZ) to meet *Poultry Farm* (52.YY) requirements, and *Poultry Farms* (52.YY) to meeting *Pig Farm* (52.ZZ) requirements.
- ❖ Currently Broiler Farms are required to meet ALL of the requirements of Particular Provision Clause 52.31 Broiler Farms. This is replaced with a requirement to meet only SOME requirements of new Clause 52.YY, creating confusion about how the remaining Clause 52 requirements apply.
- ❖ Proposed Particular Provision 52.XX *Grazing Animal Production* is not applied as a Section 1 or Section 2 condition in any zones. To what and when does it apply?

#### **NOTES: RURAL ZONES**

##### **ALL RURAL ZONES**

- ❖ Introduces *Poultry Hatchery* and *Intensive Dairy Farming* without a Particular Provision or conditions in any zone. No scale or setbacks.

##### **FZ GWZ RAZ**

- ❖ At *Grazing Animal Production*, there are no conditions or references to proposed Clause 52.XX *Grazing Animal Production* (allowed without a permit if 100m from dwelling in separate ownership / residential zone / waterway)
- ❖ CONFLICT Retains *Intensive Animal Husbandry* as Section 2 despite it being deleted from planning scheme definitions (and other zones).
- ❖ Changes *Pig Farm*, *Poultry Farm* and *Broiler Farm* from Section 2 (permit required) to Section 1 (as-of-right) with conditions.

## RCZ GWAZ RLZ

- ❖ Replacement of Intensive Animal Husbandry with Intensive Animal Production means only Cattle Feedlot and Intensive Dairy Farm are prohibited and all other **currently prohibited intensive animal uses become Section 2** permit required (and specifically Pig Farm, Poultry Farm (and Broiler Farm) and Poultry Hatchery), and none include **conditions** (including conditions prohibiting in special water supply catchments).

## Green Wedge Zones

- ❖ **GWZ** At Section 1 *Agriculture* “other than”: *Intensive Animal Husbandry* is deleted (but remains at Section 2); *Pig Farm* and *Poultry Farm* are made Section 1 with conditions but not included in “other than” at *Agriculture*, and *Grazing Animal Production* is added to the Section 1 table when it is already included in *Agriculture* at Section 1.
- ❖ **GWAZ** *Extensive Animal Husbandry* is currently Section 1, but as *Grazing Animal Production* becomes Section 2.

## NOTES: COMMERCIAL, INDUSTRIAL AND UFZ ZONES

### C1 C2

- ❖ Prohibition of extensive animal husbandry (grazing animal production) through prohibition of grazing animal production.
- ❖ Deletion of *Extensive Animal Husbandry* and inclusion of *Animal Production* changes ‘grazing’ from Section 2 (permit) to Section 3 (prohibited).

### UFZ

- ❖ Adds conditions to existing Section 2 (permit) for *Broiler Farm* (error – 52.ZZ-2 pig farm) and *Cattle Feedlot* (52.26 Code and catchments in Code only).

### IN2 IN3

- ❖ Deletion of *Intensive Animal Husbandry* Section 3 allows all forms of intensive animal uses.

### IN1

- ❖ CONFLICT *Intensive Animal Husbandry* is retained at Section 3 (no exceptions) but deleted from “other than” at *Agriculture* Section 2 (permit), and from Clause 74 definitions. Concurrently *Broiler Farm* and *Cattle Feedlot* are included at Section 2 (permit). Other intensive animal uses become both prohibited OR permit required at the same time. If the intent is to delete *Intensive Animal Husbandry* from Section 3 (as in IN2 and IN3), all intensive animal uses would become Section 2, as in those zones.

### IN1 IN2 IN3

- ❖ Deletion of *Extensive Animal Husbandry* and inclusion of *Animal Production* results in ‘grazing’ changing from Section 1 (as-of-right) to Section 2 (permit) in industrial zones.
- ❖ *Cattle Feedlot* and *Broiler Farm* are added to Section 2 each with a condition to be met. Neither includes restrictions for water catchments.

### IN1 IN2 IN3 UFZ

- ❖ *Broiler Farm* condition Clause 52.ZZ-2 relates to the Particular Provision for *Pig Farm*, not *Poultry Farm*.

## NOTES: RESIDENTIAL ZONES

- ❖ **ALL** At Section 3, Intensive Animal Husbandry is replaced with Animal Production, which means intensive uses remain prohibited, and current extensive animal husbandry (Grazing Animal Production) is also prohibited.
- ❖ **MUZ** Currently does not include Intensive Animal Husbandry at Section 3. Changes correct this.
